

JOB DESCRIPTION

Software Engineer

Technology • Full Time • Hyderabad / Remote • 0–3 Years Experience

Company	TechNova Solutions
Job Type	Full Time
Location	Hyderabad / Remote
Experience	0–3 Years
Salary	■6 – ■10 LPA
Department	Engineering / Technology

About the Role

We are looking for a motivated Software Engineer to join our engineering team. The successful candidate will design, develop, test, and maintain reliable web applications while working closely with product, design, and QA teams. This role is suitable for candidates who enjoy solving technical problems and building scalable software.

Key Responsibilities

- Develop responsive and maintainable web applications using modern programming practices.
- Build and integrate REST APIs and work with relational or NoSQL databases.
- Write clean, reusable, well-tested, and documented code.
- Debug application issues and improve performance, reliability, and security.
- Collaborate with designers, product managers, QA engineers, and other developers.
- Participate in code reviews, technical discussions, and Agile development activities.
- Maintain technical documentation and contribute to continuous improvement.

Required Skills

- Strong fundamentals in HTML, CSS, JavaScript, and programming concepts.
- Knowledge of Python, JavaScript/Node.js, Java, or another backend language.
- Understanding of REST APIs, databases, SQL, and Git.
- Basic knowledge of software development lifecycle and debugging.
- Good analytical, communication, and problem-solving skills.

Preferred Skills

- React.js or another modern frontend framework.
- Node.js / Express or Django / Flask.
- PostgreSQL, MongoDB, or similar databases.

- Cloud platforms, Docker, CI/CD, or deployment experience.

Education

Bachelor's degree in Computer Science, Information Technology, Artificial Intelligence, or a related technical field. Final-year students and recent graduates with strong project experience may also apply.

What We Offer

- Competitive compensation and performance-based growth opportunities.
- Mentorship and hands-on experience with real-world software projects.
- Collaborative and learning-focused work environment.
- Opportunities to work with modern development tools and technologies.

How to Apply

Submit your updated resume through the Job Portal. Candidates may be asked to complete a technical assessment followed by technical and HR interviews.
